Creating a Hi-Res PDF for *Postcard Printing from QuarkXPress*

0

1. Create a document with .25" margins for important elements as shown:

For 5.5" x 8.5" finished size postcards, set page size as 5.625" x 8.625"

For 4.25" x 5.5" finished size postcards, set page size as 4.25" x 6.25"

2. Choose File > Export > and select Layout as PDF...

Export as PDF with all default options.

Do not change any settings, include crop marks or any other printer marks, etc.
